Situated on what we believe is the most beautiful of the Western Peninsular beaches, Tito's Paradise Eco Lodge has excellent quality national and international food, cold drinks, the freshest Poyo (palm wine) and accommodation all available.

Come and enjoy perfect relaxation in the most secluded beach set right at the edge of the rain-forest. **Our mission is to make your visit perfect.**

We are committed to working with and protecting the environment. We keep our beach in pristine condition and free from rubbish. We only use the freshest of food, accessed locally where at all possible. We are also growing our own organic salad and vegetable products. Vegetarians very well catered for.
